PROFESSIONAL SUMMARY

Product Designer and Master of Digital Media candidate with a BFA background, specializing in bridging complex visual narratives with interactive system design. Expert in translating user insights into intuitive interfaces and scalable design systems. Proven ability to lead the full product lifecycle—from conceptual ideation and research to high-fidelity prototyping and front-end implementation. Passionate about leveraging creative coding and emerging technology to build cohesive, user-centric digital experiences.

FEATURED PROJECTS

Design Engineer | Fableware Impact Engine

Project Development | May 2026 – Present

- Led frontend design for the player summary module, focusing on clarity and data visualization.
- Developed interaction flows and high-fidelity visual prototypes to define how users navigate complex decision-making systems.
- Implemented core interface components, bridging the gap between product requirements and functional web implementation.

Frontend Designer | AI Workflow Design System

Experimental Design Workflow Research | Jun 2026 – Present

- Created an experimental AI-assisted design workflow system for building interactive digital products and visual systems.
- Directed AI outputs through prompt strategy, visual language definition, interface iteration, and prototype refinement.
- Designed and documented how AI can support product ideation, interface generation, motion direction, and front-end implementation.

Product & Visual Designer | Baby Steps

Pregnancy & Parenting Support App | Jan 2026 – April 2026

- Designed a pregnancy and early-parenting support app focused on daily guidance, emotional reassurance, and growth-stage tracking.

- Built mobile UI flows, onboarding, interaction patterns, design system components, and visual storytelling for the product experience.
- Created 2D animation assets, AR/Unity concept direction, user testing synthesis, and roadmap documentation for future product expansion.

UX/UI Designer | FlyLens

Travel Pricing Clarity Tool | 2026

- Designed a flight-price clarity tool focused on helping users understand, compare, and interpret travel pricing more easily.
- Created UX research, product strategy, interface flows, case study visuals, mockups, and UI design for a travel-tech product concept.
- Developed the project as a full UX/UI case study, including problem framing, design process, user research, and final product presentation.

Interactive Designer | Trash Talk with Rumi

Sustainability & Environmental Learning | 2026

- Built an interactive web experience exploring sustainability, waste literacy, and playful environmental learning.
- Designed and implemented a rich scroll-based website using motion, visual storytelling, interactive sections, and experimental web interactions.
- Integrated custom visuals, animated transitions, canvas/physics-inspired elements, and portfolio-ready case study presentation.

TECHNICAL SKILLS

- **Product Design:** UI/UX Design, Interaction Design, Product Strategy, User Research, Prototyping (Figma), Design Systems.
- **Frontend & Creative Tech:** HTML/CSS/JavaScript (ES6+), React, Web Animation (GSAP), Physics-based interaction (Matter.js), Responsive Web Development, Git/GitHub Pages.
- **Art & Design:** Digital Illustration, Storyboarding, Typography, Motion Direction, 3D Concepts (Blender).
- **Software:** Figma, Adobe Creative Suite, VS Code, Notion, Unity.
- **Languages:** Native Mandarin & Cantonese | Professional English.

CREATIVE LEADERSHIP & EXPERIENCE

President of Student Council (Cohort 20)

Master of Digital Media Program, Vancouver, BC | Sept 2025 – Present

- Serving as the lead visual and communications ambassador for the cohort.
- Leading the design and promotion of high-impact student networking events.

Instructional Assistant (IA)

Centre for Digital Media, Vancouver, BC | Jan 2026 – Present

- Assisting graduate students in organizing industry-focused projects.
- Facilitating the pipeline between faculty and students, ensuring technical requirements and creative briefs are clearly understood.

Lab Supervisor (Facility Management)

University of Victoria - Fine Art Dept., Victoria, BC | Sept 2024 – April 2025

- **Software Mentorship:** Provided expert technical support for creative software, including Adobe Suite and 3D tools (Blender/SketchUp), assisting students in troubleshooting digital art workflows.
- **Operational Oversight:** Managed daily operations for a technical facility, ensuring hardware and software tools were optimized for creative production.

EDUCATION

Master of Digital Media (MDM) | University of British Columbia , Vancouver, BC | *In Progress*

Bachelor of Fine Arts (BFA) | University of Victoria, Victoria, BC | *May 2025*

ADDITIONAL EXHIBITIONS & AWARDS

- **Exhibitions:** *Interoception* (2024) | *Lorem Ipsum* (2024) | *Bedroom* (2024)
- **Awards:** Ma Ruren Graduate Scholarship (2026) | MDM Tech Scholarship (2025) | Miles Lowry Legacy Award (2025)
